**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

***Drawings***

The following changes to the drawings have been approved by the examiner: All of the cross hatching patterns should be selected from those shown on page 600-81 of the MPEP based on the material of the part. Also see 35 CFR 184 (h)(3) and MPEP 608.02.

. In order to avoid abandonment of the application, applicant must make these above drawing changes.

***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: There is prior art regarding semiconductor structures comprising a first upper level of interconnect members formed over a semiconductor layer, a first insulative material, and a second insulative material isolating the lower members. See that Jeng et al. (US 5818111) teaches all the above.

However, the application as amended recites a semiconductor structure comprising a first insulative layer having a relatively low dielectric constant electrically isolating the upper members over a semiconductor layer, a second insulative layer with a relatively high dielectric material between and over the lower interconnect members. The Application also has method claims reciting the method of forming the above device by removing portions of one insulating layer and forming a further insulating layer in regions where the previous layer was removed.

These limitations in combination with all other limitations in the claims specifically describing the device and/or the method of making such is neither obvious over nor anticipated by the prior art of record. Therefore, the application as amended is allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
